

# **WELCOME TO MY COMMITTE**

**MY COMMITTE**

# ABOUT US

My Committee driving transformational change by drilling down on the root causes of the triple planetary crisis of climate change, nature and biodiversity loss and pollution.

My Committee work is focused on helping countries transition to low-carbon and resource-efficient economies, strengthening environmental governance and law, safeguarding ecosystems, and providing evidence-based data to inform policy decisions.

# MISSION VISION

## **Mission**

To create a collaborative platform where individuals and communities can come together to take actionable steps towards a cleaner and greener environment. By planting trees and spreading awareness, we aim to reduce pollution, restore natural balance, and inspire positive environmental practices across the country.

## **Vision**

To become a leading community-driven platform dedicated to environmental sustainability, where collective efforts empower individuals to make a lasting impact. We envision a future where everyone actively participates in protecting the planet, reducing pollution, and fostering a greener, healthier world for generations to come.

# CROWD FUNDING

Crowd funding is the use of small amounts of capital from a large number of individuals to finance a new business venture. Crowd funding makes use of the easy accessibility of vast networks of people through social media and crowd funding websites to bring investors and entrepreneurs together, with the potential to increase entrepreneurship by expanding the pool of investors beyond the traditional circle of owners, relatives, and venture capitalists.
